**Neal Packer, C.O.O.**  
**Jeffery Finkle, President**  
**Andrea Packer, Vice President Marketing**

In 1906 Amos Hill and Charlie Markes began Hill & Markes Inc. in Amsterdam, New York. In 1947 Harry and Harriet Finkle purchased the company and expanded the product lines to include school supplies, paper products, and rental dishes and cutlery. Harry finkle worked until he was 83 years old. Corporate officers, Neal Packer, C.O.O.; Andrea Finkle, Vice President of Marketing; and Jeffery Finkle, President; joined the family business in early 1970. The focus and growth of Hill & Markes has evolved with their presence in the business.

Today, Hill & Markes offers customer four divisions of products: food service, janitorial products, industrial packaging, and office supplies. The company services the states of New York and Vermont from one Amsterdam location. In 2004 a new addition increased the size of the facility to 100,000 sq. ft. Always looking to be on the cutting edge of the industry, the company strives for innovation in technology and promotion of current initiatives such as the "Sustainability Initiative" Growth for the company has also meant being recognized in the community and industry with many awards as an excellent business to work for as well as an excellent company to do business with.

PRE44802	48" x 750'	3/16", S12	BN

### Pregis AirSpeed™ 5000 Air Cushioning Film

This void fill system provides excellent protection, on-demand convenience and cost savings versus alternative materials. Fifty-foot-per-second speed, easy operation, reliability and compressor-free portability add up to maximum productivity and profitability. Roll length: 1,815'.

Item	Size	Pack
PRE57344	10" x 8"	RL

### Pregis Astro-Cell® Plus Air Cushioning Bubble

Employs a thin, co-extruded barrier that is 100 times more resistant to the passage of air than even a thick, single layer of polyethylene. The result is a packaging material that retains its air and cushioning power much longer and under greater pressure, than competitive, non-barrier bubbles. Air cushioning keeps products of all shapes and sizes securely in place while protecting them from shock, vibration and abrasion. Lightweight, clean and flexible. A smart alternative to loose fill.

## Kraft Paper

### Gordon Paper Gray Recycled Bogus Papers

Made specifically for inner packaging and void fill. They are comprised of 100 percent recycled fibers. Much of the fiber is from old newspapers, and the ink on these papers cause the gray color. Because of the large amount of recycled newspaper these papers have a natural high bulk, absorbency and exceptional softness that make them ideal for interior cushioning. For companies wishing to make a strong "green" statement about environmental stewardship, gray recycled papers offer the combined advantages of source reduction because of their high void fill to weight ratio and 100 percent post-consumer waste recycled content.

Item	Size	Pack
GOR3650	36", 50#	RL

### Gordon Paper Recycled Kraft Paper Rolls

Made from 100% recycled material and is recyclable. Lower cost per pound than virgin kraft, but with less burst and tear strength. Can replace film or peanuts. Economical for use in industrial/manufacturing packing, wrapping, bundling, etc. Applications: Bottom wrap, carrier sheet, floor covering, masking, skid and pallet covering, dust cover, inner wrap, interleaving, void-fill, box and tray liners.

# OUR SUSTAINABILITY MISSION

## HILL & MARKES SUSTAINABILITY MISSION-

To be the leading source of information and direction about sustainable practices and environmentally-friendly products.

## WHY USE HILL & MARKES TO HELP GUIDE YOUR PROCESS-

Hill & Markes is committed to a proactive approach in balancing the economic realities of business today with the responsibility of implementing sustainable business processes. Our guidance will include:

### ASSESSMENT-

Hill & Markes starts the sustainability process with a customized assessment of your current situation and needs. Each customer engagement is tailored to proceed at its own pace.

### ADVISE-

Advising your company on sustainable processes and green products:

- Asking the relevant questions
- Listening to what you have to say
- Working together to build and execute a plan

### CONNECT-

Providing a bridge to the leading suppliers of quality green services and products.

### COORDINATE-

Coordinating implementation processes and local market leading experts on the applications and advantages of green practices and products.

Hill & Markes provides you with the information and direction you need to select the best path toward sustainability for your enterprise.
