

# OUR SUSTAINABILITY MISSION

## HILL & MARKES SUSTAINABILITY MISSION-

To be the leading source of information and direction about sustainable practices and environmentally-friendly products.

## WHY USE HILL & MARKES TO HELP GUIDE YOUR PROCESS-

Hill & Markes is committed to a proactive approach in balancing the economic realities of business today with the responsibility of implementing sustainable business processes. Our guidance will include:

### ASSESSMENT-

Hill & Markes starts the sustainability process with a customized assessment of your current situation and needs. Each customer engagement is tailored to proceed at its own pace.

### ADVISE-

Advising your company on sustainable processes and green products:

- Asking the relevant questions
- Listening to what you have to say
- Working together to build and execute a plan

### CONNECT-

Providing a bridge to the leading suppliers of quality green services and products.

### COORDINATE-

Coordinating implementation processes and local market leading experts on the applications and advantages of green practices and products.

Hill & Markes provides you with the information and direction you need to select the best path toward sustainability for your enterprise.
